SUBJECT INDEX TO VOLUME 11

Adrenal androgens, lack of role, in oligozoospermic normogonadotropic men treated with clomiphene citrate, 223
Automated videomicrographic measurement of sperm motility in semen, normal fertility values for men, 53

Danazol, exercise may reduce side effects of, 259

Ectopic pregnancy, fertility after, 167
Efficacy of barrier adhesion reduction, effect of blood on, 273
Emotional gamble of IVF, psychological program with in vitro fertilization, need for, 133
Endogenous gonadotropin surges, stimulated cycles, in vitro fertilization/embryo transfer program, 35
Endometriosis:
  follicular and corpora luteum function and prostaglandin levels in patients with, 111
  individualized treatment with danazol and surgery for infertility caused by, 175
  steroid receptor levels in ovarian cysts with, 255
Establishment of pregnancy by tubal transfer, 233

Fatty acid composition of cervical mucus lecithin and primary infertility, 123
Follicular growth analysis in pregnant and non-pregnant patients, 245

Immunoreactive urinary FSH and LH, in premature ovarian failure, altered forms of, 1
Insemination location and conception, observations of embryonic retardation in humans and bovine, 91
Intratubal artificial insemination, 77

Laser wedge resection, experimental, ovarian function after, 43
Lead exposure in pubertal rats, 265

Ovarian hyperstimulation syndrome: ultrasound and hormonal profile to identify the patient at low risk in an IVF/ET program, 157
Ovulation induction in PCOD patients, correlation between body weight and pure FSH dosage in, 103

Progesterone and oestradiol binding and uptake, by endometric nuclear material from fertile and subfertile women, 13
Prolactin concentrations, menstrual, disturbed by weight reducing diets or exercise, 185
Pronuclear stage tubal transfer (PROST), triplet pregnancy in women with primary ovarian failure arising after, 203
Psychosocial pressures on women, attending infertility investigations, role of junior doctor, 65

Seminal fluid in infertile males, immunological, morphological and biochemical analysis of, 213
Silastic seminal fluid collection device, 281
  improvements of seminal deficiencies through use of, 289

Tubal anastomosis, a new approach, 193
